

Course Description:

Compressed Air Emergency Breathing System (CA-EBS) delivered in conjunction with T-BOSIET/ T-HUET/ T-FOET)

Tropical BOSIET with CA - EBS

To provide basic training to trainees to make them aware of the hazards that can occur while traveling to and from an offshore installation, while working and living on offshore installations, and how to respond effectively and appropriately to emergencies aboard these installations. This course is designed for individuals who work in places where water temperatures remain above 15 degrees Celsius throughout the year.

Course Details

Guided Learning Hours: 18 hours and 5 minutes (excluding introductions of 40 minutes)

Number of training days at the Facility: 3 days

Validity:
4 years

Learning Outcomes/ Key Topics:

OIS 1 - SAFETY INDUCTION:

1. Typical offshore oil and gas activities
2. The main offshore hazards
3. The potential environmental impact of offshore installation operations
4. The principles of managing safety on offshore installations
5. Hazard effects and consequences; their associated risks, and how they are controlled
6. Key offshore installation safety regulations and the basic concept of these regulations
7. Key information and policies to ensure the health, safety and wellbeing of those living and working offshore

OIS 81 - HELICOPTER SAFETY AND ESCAPE CA-EBS - TROPICAL:

1. Helicopter Travel
2. Helicopter Emergencies
3. Practical Helicopter Escape Techniques

OIS-276 – Helicopter Emergencies

1. Use of Compressed Air Emergency Breathing System (CA-EBS)
2. Use of Compressed Air emergency Breathing System (CA-EBS) (Practical in a dry environment)
3. Practical Helicopter Escape
4. CA-EBS Training (In-Water)

OIS 03 – SEA SURVIVAL AND FIRST AID:

1. Evacuation Methods and Procedures
2. Emergency First Aid
3. Muster and Actions upon boarding a survival craft (TEMPSC)
4. Sea Survival and emergency In-water actions
5. Immediate First Aid Actions

OIS 04 – FIRE FIGHTING AND SELF RESCUE:

1. Common causes of offshore fires and actions to be taken
2. Self-Rescue Equipment and Techniques
3. Raising the alarm and operation of hand-held extinguishers
4. Self-Rescue Techniques

Pre-requisites:

None

Minimum Learners per Class : 08

Maximum Learners per Class : 16

NOTES:

Cost includes lunch and drinks.

Due to the physical demands of the course, it is the responsibility of the employer and participant to assess the participant’s ability to safely attend the Course.
